

# How You Accelerate The Trade Documentation Process

## Your Challenges

✓  
comply with industry regulations

↑↑↑  
increase control and transparency of documentation

⌚  
accelerate the drafting and negotiation process

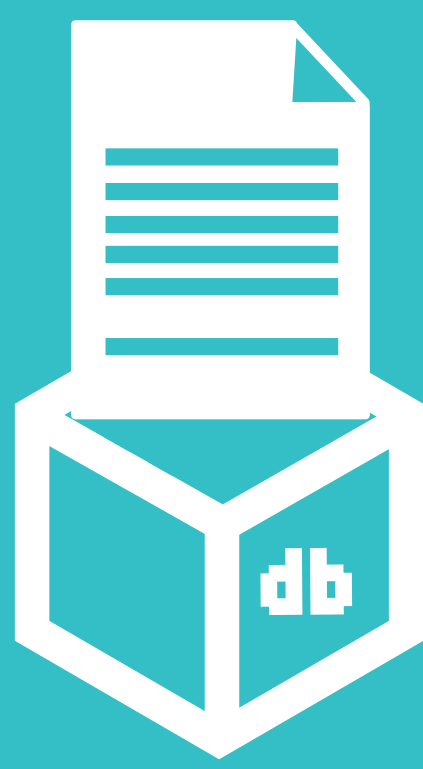

Here's a true story of how this was done...

💰💰💰💰💰  
**5** of the G15 investment banks

🏛️🏛️🏛️  
**3** of the world's largest buy-side firms

piloted SaaS-based **Smart DX** to process MCAs {Master Confirmation Agreements}

**Smart DX** created MCAs using base industry templates. The banks and firms negotiated them within "Docboxes"...

### Docbox—

A secure online container that lets people collaborate on and negotiate documents. **EFFICIENT**  
Docboxes track all changes and provide an audit trail of all actions. **TRANSPARENT**

*And good things happened in the pilot...*

### Before...

Drafting MCAs in Word

**2 hours**

Negotiating MCAs with local saved files

**10 days**

Approving emailed MCA

**20 minutes**

Finalising emailed MCA

**5 minutes**

### After...

Drafting MCAs using pre-defined templates

**2 minutes**

Negotiating MCAs using a Docbox

**Under 7 days**

Approving MCAs within a Docbox

**2 minutes**

Finalising emailed MCA

**30 seconds**

### Compared to typical manual processing...

**30%**

reduction in the MCA processing time

**11**

Outbound sell-side tasks were eliminated

**13**

Inbound sell-side and buy-side tasks

**Smart DX** accelerates the trade documentation process
